Strong results with a 98% ROE

November 1, 2023

- Is Yatirim reported TL2,912mn consolidated net income in 3Q23, in line with our TL2,044mn estimate, considering the TL1bn free provision reversal which had been set aside in 4Q22. As such, Is Yatirim's net income grew by 280% y/y and 2% q/q (from an already high base created by TL1.3bn revaluation gains) for an ROE of 98% in 3Q23. Accordingly, Is Yatirim's grew by 253% y/y in 9M23 for an ROE of 100%. The company reported TL3,750mn gross profit (+176% y/y) in 3Q23, which surged on elevated trading volumes as well as Is Yatirim's market share gains.
- Is Yatirim maintained its 2nd position in equities with a 256% y/y increase in volume for a 10.1% market share (up from 8.4% in 3Q22) and maintained the 2nd position in derivatives with a 56% increase in volume for a 9.2% market share in 3Q23 (down from 10.3% in 3Q22). Meanwhile, Is Yatirim's size of debt security issuances rose by 29% y/y as the company ranked 3rd with a 11.9% market share in 9M23. The company's equity loan size grew strongly q/q to TL5.9bn as at end-3Q23, growing by 151% y/y while we estimate that the average yield surged further to 61% in 3Q23 from 56% in 2Q23 and 34% in 3Q23. Finally, Is Asset Management's AuM reached TL284bn, rising by 24% q/q and 106% y/y.
- We should note that average daily trading volume in Turkish equities has pulled back by a slight 16% q/q so far in 4Q23 to TL164bn, still remaining some 36% above 4Q22. We believe that activity will remain strong, especially thanks to a busy IPO pipeline, even though some downward normalization from 3Q23's extremely high base is likely, given the ongoing increase in TL deposit rates. On the other hand, a revival of demand from international investors following the local elections scheduled for end-1Q24 may further boost trading volumes and Is Yatirim's earnings in 2024.
- We maintain our Overweight rating for Is Yatirim with our 12M TP of TL59.81/share, offering a 44% total return potential. We estimate a 132% EPS growth in 2023, followed by another 42% in 2024 for an ROE of 67%. We think that the stock is trading at undemanding multiples of 4.5x 2024E P/E and 2.2x 2023E P/B with a 3% dividend yield.
